ABOUT KB SWITCHES

Made in Surat. *Made for how you live.*

KB Switches is an Indian manufacturer of smart touch switches and home automation, founded in Surat, Gujarat in 2019.

We design and make our panels ourselves, so you deal directly with the makers. That keeps prices fair, answers fast, and leaves plenty of the panel up to you: the finish, the size and the controls in every room.

Every KB product is built to high standards of quality, complies with the applicable safety norms, and is tested before it is delivered. From our Surat base we serve homes across India through a growing network of dealers and distributors.

WHY KB

Four reasons homes *choose KB.*

01

Direct from *the maker.*

We manufacture in Surat and sell through our own network. Better prices, and real service from the people who built your panel.

02

Fits the wiring *you have.*

KB panels replace your old switchboards. Or keep your boards and add a KB retrofit module behind them. No wall breaking.

03

Touch, app, voice *or remote.*

Every light works from the glass, even without internet. Add the Smart Life app, Alexa, Google Assistant or a simple remote.

04

Your layout. *Your colour.*

Black or white glass, or acrylic in colour. From 2 to 8 modules, with the switches, fan controls and sockets each room needs.

Feather-light touch | Affordable for every home | Custom-made panels | Easy to use | Saves electricity

01 · GLASS TOUCH PANELS

Glass that *glows when you need it.*

Black or white glass with softly backlit icons. Lights, fan speed and sockets live together on one clean panel, from 2 up to 8 modules.

- Backlit icons you can find in the dark
- Fan speed control, master off and sockets built in
- Works by touch, app, voice and remote
- 2, 4, 6 and 8 module sizes

Finishes

Black glass

White glass

WHITE GLASS

Bright rooms deserve *a bright panel.*

The same touch controls in crisp white glass, made to sit quietly on light walls, wood and marble.

Lights and 2-way
Individual touch keys for every light

Fan control
On, off and speed up or down

Sockets built in
6A socket options on the same plate

Bell and curtain
Doorbell and curtain keys on 2M plates

POPULAR GLASS CONFIGURATIONS

CATALOGUE CODE	SIZE	FINISH	TYPICAL ROOM
8M + 6SR + SOC-1	8 module	● Black glass	Living room, master bedroom
6M + 4SR + SOC-1	6 module	● Black glass	Bedroom, dining
6M + 7S + SOC-1	6 module	○ White glass	Hall, kitchen
4M + 4S + SOC-1	4 module	● Black glass	Study, kids' room
4M + 7S	4 module	○ White glass	Corridor, lobby
2M Bell · 2M + CT-2	2 module	Black or white	Entrance, windows

The same touch, *in the colour of your room.*

Satin acrylic plates with all the smart controls of our glass range. Match the wall, contrast the wood, or keep it calm in grey.

Colour options

- Black
- Grey
- Light grey
- Lavender

Ask us about custom colours for your project.

2 to 8 modules
Single switches to full-room panels

Sockets on the plate
6A sockets built into 4M and 6M plates

Fan and scene keys
Fan speed and master control

03 · ROMA LOCKING SWITCHES

Modular touch, *built to lock in.*

Roma is our 2-module locking range: square black-glass touch switches that snap into standard modular boxes, for lights, fans and heavy-duty power.

- Locking modules for a firm fit
- 15A and 24A power for AC and geysers
- Smart Life app and Alexa ready

4-light switch
Four lights on one 2M plate

Fan regulator
Touch speed control

Curtain switch
Open, close and stop

15A power
For heavier appliances

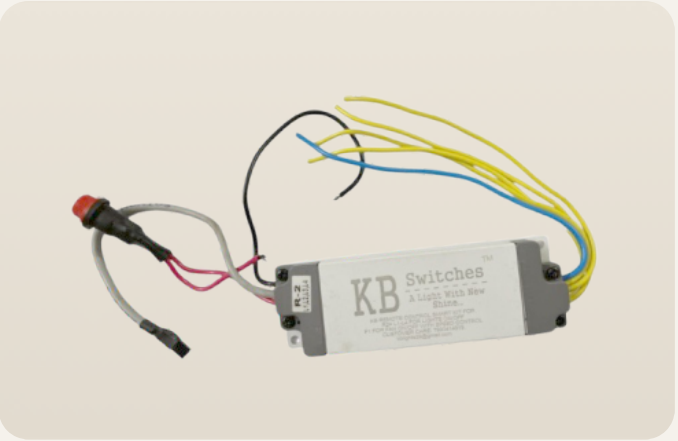

24A power
For AC and high loads

Bell switch
A doorbell that matches

04 · RETROFIT WITH REMOTE

Keep your board. *Make it smart.*

Not ready to change your switchboards? The KB retrofit module fits behind the board you already have.

- Works with your regular switchboard
- Installs easily, with no new wiring runs
- Control by remote, included
- Add the mobile app with an IR blaster

05 · SENSORS, LOCKS AND CURTAINS

Round out the *whole home.*

Motion sensors

Lights that switch on as you walk in, for stairs, passages and washrooms.

Digital door locks

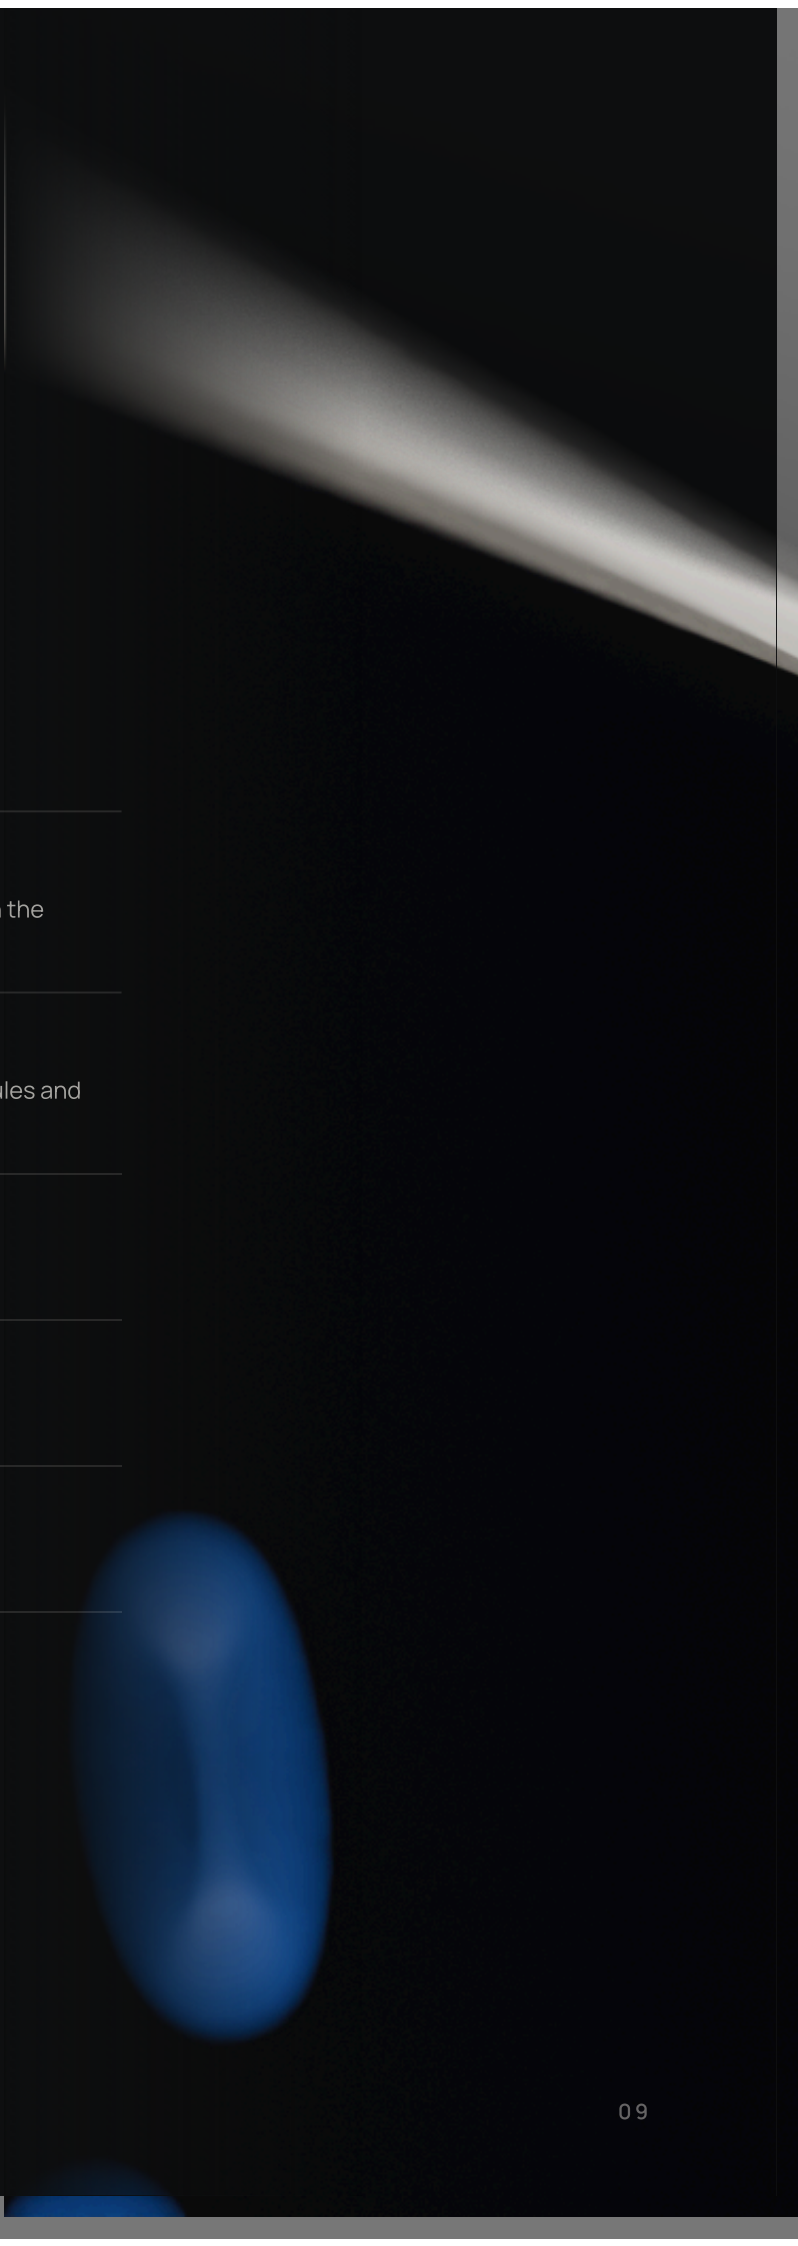

Keyless entry for the front door, chosen to match the rest of your home.

Curtain motors

Open and close curtains from the panel, the app or your voice.

CONTROL, YOUR WAY

One home. *Five ways to run it.*

Touch

A feather-light tap on the glass. Works even when the internet is down.

Smart Life app

Switch lights and fans from anywhere, set schedules and scenes.

Alexa

“Alexa, turn off the bedroom lights.”

Google Assistant

Voice control from your phone or smart speaker.

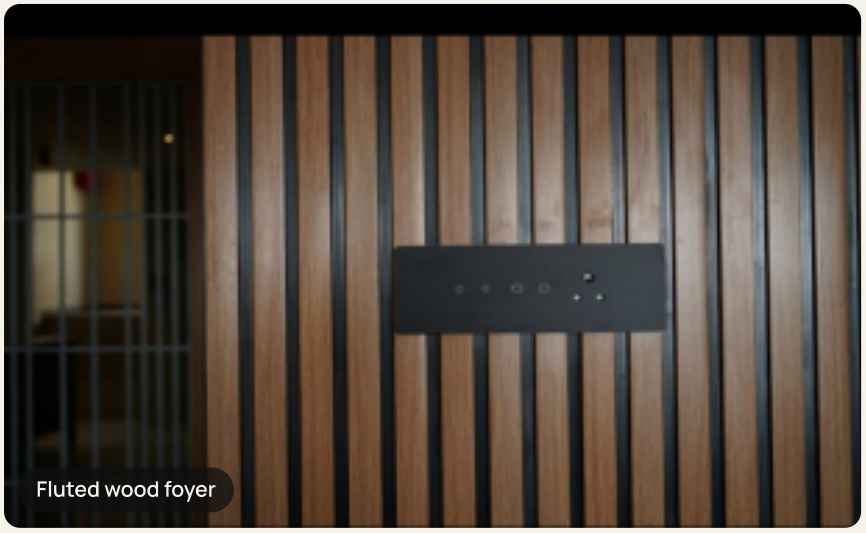

Remote

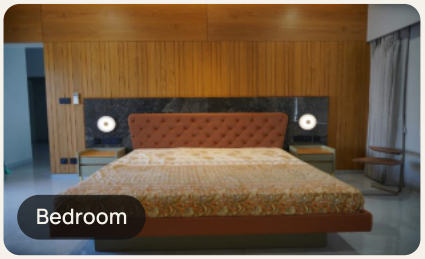

A simple remote for the sofa or the bed.

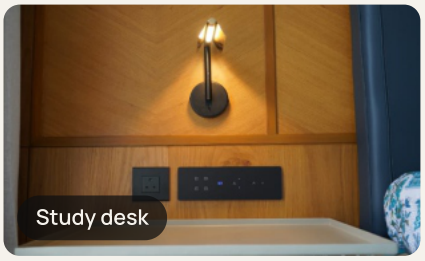

App and voice control need a 2.4 GHz Wi-Fi network.

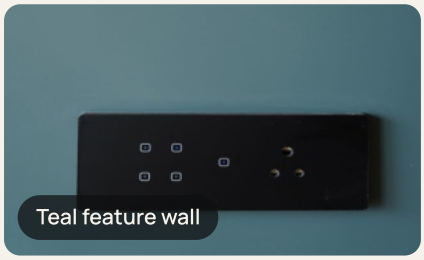

REAL HOMES

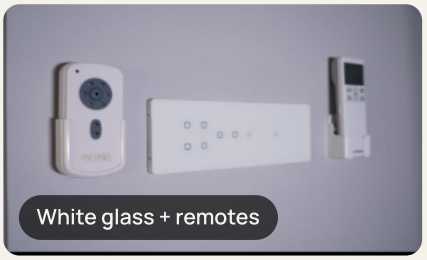

Already at home *in homes like yours.*

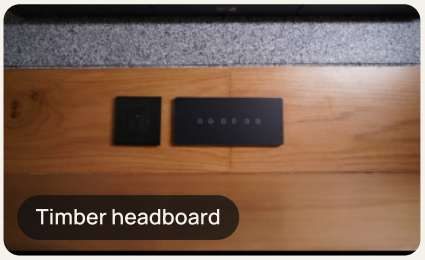

★★★★★

“I had installed KB switches at my bungalow with a reference from my friend, and it's really good and soft touch. I got impressed, and thanks to the KB team who gave service in Rajasthan.”

Deva Rathod · Rajasthan · Google review

★★★★★

“Using since 5 years. Gave my house a premium look over normal switches. Must have for houses.”

Yug Sanklecha · Google review

HOW IT WORKS

From old switchboard *to glass.*

01

Tell us about your home

WhatsApp a photo of your switchboards and a list of rooms, or walk into our Surat gallery.

02

Get your panel plan

We lay out each room: finish, size and controls, with a clear quote.

03

Installation

Panels go in place of your old switchboards, or retrofit behind them.

04

Set up and support

We pair the app, Alexa or Google, and stay a message away afterwards.

DEALERS, ARCHITECTS AND ELECTRICIANS

Grow with *a manufacturer.*

KB works with dealers and distributors across India, with partners from Ahmedabad to Rajasthan. Bring KB to your city, or specify it for your next project.

Manufacturer pricing

Buy direct from the factory in Surat, with no middle layers.

Made to your project

Custom sizes, finishes and control layouts for every room.

A full range to sell

Glass, acrylic, Roma, retrofit, sensors, locks and curtain motors.

Support that answers

Product training, setup help and after-sales service from the KB team.

WhatsApp +91 79904 14919 to become a partner
